IIF Approves State-USSC Land Swap

Sugar Companies Make Home for PBJC

Students will be using the permanent Palm Beach Junior College Campus gained Tuesday by state cabinet action according to tentative plans announced by PBJC President Dr. Harold C. Manor.

A land exchange making possible the use of a 40 acre tract of land on the west side of SR715 just south of Gladesview Trailer Park and Diane Apartments was approved Tuesday by the cabinet sitting as the Internal Improvement Fund (IIF) Board.

The exchange was the result of negotiations between PBJC, the Sugar Cane Growers Cooperative of Florida, Inc., U.S. Sugar Corp. and IIF officials begun by Cooperative President George Wedgworth in December 1973.

The 40-acre campus site is now owned by U.S. Sugar, which will swap the tract for 82 acres of land now owned by the IIF which is located on U.S. 441 near U.S. Sugar's Runyon Village.

To help get the construction of the new college campus off the ground, the Cooperative has also agreed to donate \$75,000 to the PBJC Glades Center construction fund.

The \$75,000 donation is in place of Wedgworth's original proposal to the IIF Board that the Cooperative buy the 82 acre tract from the state, swap it for the 40-acre U.S. Sugar tract and donate the 40 acres to PBJC.

The donation is based on the agricultural value of each of the two tracts, set at \$1,950 per acre. Manor said the \$75,000 will be used only on the Glades campus, adding the college already has some \$300,000 in building funds slated for new construction at both the Glades site and a proposed north campus site.

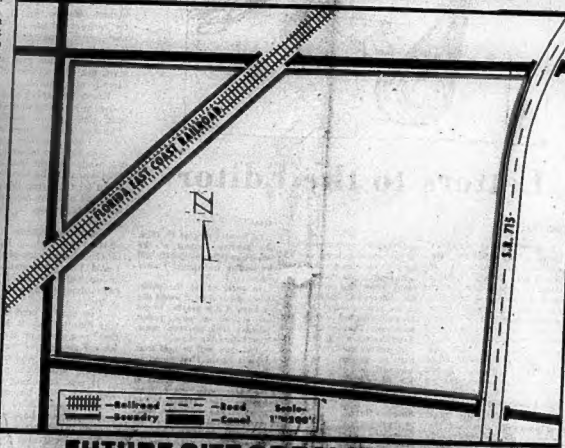

He said the board of trustees is also planning to apply for some \$1.8 million in construction funds for the two sites which is PBJC's share of a state bond issue scheduled for the near future.

"The first thing we'll have to do," Manor said, "is to have a set of master plans drawn up for construction of the two campuses. That will take approximately six months."

Then they'll have to engage a firm of architects and engineers to draw up specific building plans," he said. "It will probably be two years before any buildings are up and occupied on the new center."

Manor was lavish in his praise of the two sugar companies PBJC Trustees Mrs. Homer Hand,

James Bell, "and a lot of others" for their part in the transaction, paying special tribute to

FUTURE SITE OF PALM BEACH JUNIOR COLLEGE, GLADES CAMPUS
THIS IS A DRAWING OF THE SITE OF THE PROPOSED PBJC GLADES CAMPUS SITE OKAYED Tuesday by the state cabinet acting as the IIF Board. It is just south of Gladesview Trailer Park.

Wedgworth. "I don't think there's any doubt in anyone's mind," Manor said, "that Mr. Wedgworth spearheaded this thing right on through."

Wedgworth first became involved in the college's quest for a Glades site in February 1973 when the college was negotiating with the IIF a transaction to take over the Belle Glade Airport.

Wedgworth, speaking on behalf of the Cooperative, spoke against that move at the time during a meeting held to discuss the possible takeover which had been called following a petition drawn up by leaders of the airport.

"Part of that was selfish," Wedgworth said recently, "but the airport wasn't a good idea to begin with. There's heavy traffic on Airport Road now but if you think a lot of trucks use it now, wait until 1975."

He was referring to current expansion taking place at the sugar mill and at the Quaker Oats industrial plant adjoining it which call for expanded production in the 1975-76 sugar cane harvest season.

Mrs. Hand approached Wedgworth in December 1973, when she said the PBJC Board of Trustees had been unable to come up with a reasonable site for the Glades campus.

The college at that time was primarily interested in one of two tracts of land being administered by state agencies, one by Glades Correctional Institution and another by the Agricultural Research and Education Center at Vinegar Bend on SR80 south of Belle Glade.

Wedgworth said he decided that, instead of concentrating on state lands, on the assumption they would be free, he should concentrate instead on finding the best possible site for the campus and then figure out how to get it for the college.

He said the factors taken into consideration included the desirability of locating the campus near the center of student population, which is Belle Glade, easy access to the campus and accessibility to water and sewer service.

The 40-acre tract now under consideration fits all the criteria since it is within walking distance of many of the students living in the Belle Glade area, is on SR715, a major artery, and is near Belle

"Cont. to p.5"

Overtime Pay Presents Problems on Budget

Belle Glade city employees who were among the first things taken up Monday night at the commission's first budget session for next year, and promised to provide administrative headaches next year.

City Manager William Malley III told the commissioners the biggest problem is that the city employees now come under federal minimum wage requirements and the city has a "whole new ball game" for fiscal year 1974-75.

Causation particular pay problems will be blue collar workers and public safety employees such as fire fighters and police officers.

Among the requirements for the new fiscal year is retroactive requirement by the U. S. Department of Labor that blue collar workers be paid time and a half for everything over 40 hours a week, with no overtime pay being carried from one pay period to the next.

He said the blue collar workers have traditionally been averaging 48 hours a week but said work weeks in the future may be based on 40 hours with the understanding that any overtime must be approved in advance.

He said one plan mentioned by the Department of Labor involved a "Chinese Overtime" formula wherein the worker would be paid time and a half for the first eight hours over 40 he works but would be paid time straight time for anything over 48 hours.

He described the formula as "extremely complex and algebraic."

Malley recommended the commission approve increments for blue collar workers which amount to a 15.9 to 15.6 percent and 9 percent increase for all administrative personnel.

He also recommended 18 percent increases in clerical wages which would bring the city's beginning clerk-typist pay up to \$100 per week.

Getting into public safety work. He said he was recommending approximately a 9 per cent increase in the wages of police officers.

City Finance Director Frank Anderson told the commissioners

Several comments were made by commissioners to the effect they felt that when city officers were required to go to county court, the county should pay them but Malley said a Department of Labor official said it was the city's responsibility.

Malley said changes would also have to be made in the pay structure for firemen but he didn't make any concrete suggestions because he said that was still "up in the air."

He said the firemen would have to be paid wages based on a 40 hour work week but said there is some controversy about what should be considered overtime pay.

Malley said the city administration was originally considering upgrading fireman's pay to one step below that of a police officer but said how this is to be arrived at would have to be considered with the hours of the work week.

Sewer Plans Submitted

Belle Glade City Manager William Malley said Tuesday the city had filed preliminary plans with the state Department of Pollution Control regional office in Fort Lauderdale to build a sewer treatment plant.

Malley said the \$300,000 plant would be designed to treat a million gallons of sewage a day and would be located on the site of the present plant.

The proposed plant was one of a series of requirements made by the DPC in order for the city to obtain a temporary operating permit for the present sewer plant following a series of modifications.

inflation would definitely affect the 1974-75 Budget since the prices of some equipment and material the city regularly uses has spiraled upward as much as 50 per cent over the past year.

County Tax Assessor David Redd's office.

The budget recommended for next fiscal year, which begins Oct. 1, is \$2,777,230 as compared to the 1973-74 budget of \$2,251,978.

Herald Contest Drawing to a Close

With only a week to go before it ends, there were two weekly winners in the Belle Glade Herald's Walk Disney World contest this week as two pretty ladies received prizes from local merchants. Nine-year-old Estelina Ortega of 401 S.E. Fourth St. (sorry guys, no telephone number) scored in the seventh week of the eight-week contest. Estelina was presented a tennis racket and tennis balls by Linda Lakatos of the Western Auto Store at 70 W. Ave. A and Miss Ramon received a gift certificate from Gene Hollingsworth of

Hollingsworth Shoe Store at 233 S.W. Ave. B. Estelina said she doesn't play tennis yet but the Ramon already knows how to use whatever she'll pick from Hollingsworth's selection of merchandise and both girls know what to do with the grand prize if they win. They'll go to Walt Disney World on a trip valued at more than \$400. Word on a trip valued at more than \$400. Word on a trip valued at more than \$400. Word on a trip valued at more than \$400.

Harrison Qualifies

Qualifications continued Wednesday for the two at-large Belle Glade City Commission seats which will be decided on Sept. 10 in the city election. Eugene Harrison is shown above being qualified by City Clerk Vera Jones in Group Two. See earlier story on page 2B.

Candidates Stump

Two statewide candidates for Belle Glade's Dr. John Reddy, who is running for the U. S. Senate, were in town Tuesday in an effort to increase their visibility and voter appeal.

Dr. Neal Justin of Boone County for the Senate seat now occupied by Sen. Edward Gurney, and Dr. N. E. "Bud" Jones of Tallahassee, who is running for State Commissioner of Education, were working the streets asking

people to vote for them. Justin was the first to pass through Belle Glade, early in the afternoon, with his family. He said they were driving through from Tallahassee to West Palm Beach and were stopping in a number of towns along the way.

Justin said he is taking a leave of absence from the state and said he was returning home from a six-week tour in his car and camper.

FOR MASONRY

Seals, protects and gives beautiful color to all masonry surfaces, such as brick, cement block, stucco and asbestos siding. DURALITE ACRYLIC HOUSE PAINT produces a "breathing" type film which allows moisture within the substrate to escape in the form of vapor while protecting the surface from water from the outside.

... AND WOOD

DURALITE ACRYLIC HOUSE PAINT flows on so easily to provide a blister-resistant low sheen finish for all wood siding, trim, shakes and paneling. It dries within an hour, greatly reducing the chances of dust or insects sticking to the surface. Whites stay white, colors stay bright, your home stays beautiful year after year.

Also available in WHITE A3-161-00 and BLACK A3-161-01

Hundreds of additional colors available in the Full-Color System.

MIKE HADDAN WILL BE REPRESENTATIVE
...of Army and Fort Sill to Belle Glade area residents.

Haddan Is Recruiter for Army

Private First Class Michael R. Haddan, a native of Belle Glade, has been selected to represent the U.S. Army and Fort Sill, Oklahoma as a hometown recruiter covering the Belle Glade area, informing young men and women of military job and educational opportunities available at Fort Sill.

He completed his Basic Training at Fort Knox, Ky. in December 1973 and took his Advanced Individual Training at Fort Dix, N.J. prior to being assigned at Fort Sill. Haddan is now working as a Voice Radio Operator with a Battery, 8th Battalion, 8th Field Artillery, Haddan is the son of Mr. and Mrs. Roy Haddan of 1717 N.W. Avenue F in Belle Glade.

Recruiting officials at Fort Sill chose Haddan because of his excellent job performance and his willingness for hard work.

Sportsmen's Report Available

—TALLAHASSEE— For the price of a postage stamp, Florida sportsmen can obtain

information on all phases of Game and Fresh Water Fish Commission activities.

Toll Free Service Provided

In an effort to get in closer contact with Glades residents, the American Lung Association of Southeast Florida now provides toll free telephone service to its West Palm Beach office.

The association, formerly known as the Tuberculosis and Respiratory Disease Association of Southeast Florida, provides information on lung disease, smoking and air pollution.

Telephone service to the 2701 Australian Ave. office is also being provided to the Stuart, Fort Pierce and Vero Beach areas by the new number, WX-1753.

Normal Service Restored

Local navigational instruments were notified last week normal service has been restored at St. Lucie Locks on the Okeechobee Waterway.

Heavy rains in June have resulted in the raising of the Lake Okeechobee level after falling so low during the drought the first five months of the year.

Restricted lockages have been in effect since April in an effort to conserve water, but lockages will be performed as necessary from 5 a.m. to 10 p.m. daily, effective immediately.

Sportsmen's Report Available

—TALLAHASSEE— For the price of a postage stamp, Florida sportsmen can obtain

information on all phases of Game and Fresh Water Fish Commission activities.

Contained in digest form, the recently published annual report contains information regarding Commission finances, personnel, communications, fish management, game management, law enforcement, conservation education, environmental protection, and fisheries safety training.

The report reflects a "landmark year" when for the first time, the legislature recognized (by funding) the responsibility of every Florida citizen to the stewardship of our wildlife resources.

Previously, the Commission was funded solely by sportsmen through the sale of hunting and fishing licenses. The report features the stocking of striped bass in various lakes throughout Florida and annual harvest trends of major game species.

A copy of the annual report of the Commission may be obtained by writing Game and Fresh Water Fish Commission, Bryant Building, Tallahassee, or Commission offices in Panama City, Lake City, Ocala, Lakeland and West Palm Beach.

Farm Front by Doyle Conner

Too often, the contributions of agricultural scientists go unheralded, oftentimes unnoticed and far too many times credit is not sufficiently given. Without the efforts and accomplishments of these curious and inquiring minds, agriculture would not be where it is today.

Eradication of the dangerous screwworm fly in the south, conquering and controlling the devastating fruit fly and many other developments both biologically and economically can be attributed solely to the effective efforts of our agricultural scientists, just to mention a few.

Looking on the horizon now is another exciting possibility being researched and already showing promise is the breeding of cows without calving. If perfected, the process can be substantial in the increased production of milk, very important food item in our diet.

Work of Ohio State scientists under the leadership of Drs. Smith and Schanbacher confirmed the lactation-inducing capabilities through the use of these hormones.

The scientists tell us that much is yet to be learned about this process such as when is the best time in the cow's reproductive cycle to render like treatment, levels of other hormones in the animal and other items which must be further researched. However, the work seems to have promise.

Dr. C. W. Hield of Virginia Tech cites two major advantages where the dairy industry may benefit from induced lactation. First, the possibility of bringing heifers into milk six to 12 months earlier than normal and secondly, the return of open cows to milk production. This could be especially meaningful to dairymen who often feel their problem is difficult to get bred and culling her is certainly an economic drain.

In 1971 they reported in one experiment seven of 10 cows responded with 305 day lactations ranging from 63 to 100 per cent of the milk recorded for their previous lactation. One individual reached a level of 20 pounds of milk per day.

The scientists point out that there are certain major hang-ups but it appears these can be overcome. For example, a major barrier to induced lactation is the current high standards required for the Food and Drug Administration's approval of the hormone treatment. This is very important for the protection of the consumer and clearance of the hormone will need extensive as well as expensive hormone research. In spite of these and other questions yet to be answered the scientists say that at present, induced lactation shows considerable promise as a new management tool that will have a significant

economic impact on dairy herds of the future. So again, our hats are off to the agricultural and other scientists who consistently and persistently are making another contribution to the development of agriculture and its use for the farmer, the processor and the consumer.

Learn How to Prevent Accidents in Pamphlet

It isn't likely that anything serious will happen on an ordinary outdoor outing, but there is always the possibility of shock or sprain, burn or bite. The best thing, of course, is to prevent accidents in the first place, but if there is an emergency, prompt attention can be mighty helpful, so a basic first aid kit should be a part of any pleasure trip.

Here are some of the more common accidents listed by the people at Mountain Dew, the famous tasting soft drink, in a new free pamphlet on Outdoor First Aid, and what to do about them:

"Learn to recognize such plants as poison ivy, poison oak, and sumac and try to avoid them. If you do run against them, though, scrub your skin with soap and clear water and then wash the affected area with alcohol or chlorine lotion.

"For insect bites, remove the stinger if it's visible. Use household ammonia or baking soda and water solution to relieve the pain and itch. Don't scratch.

"If you get a blister, wash the area with soap and clear water. Cover with adhesive bandage or gauze. If there is a

MIAMI-Birds do it, bees do it, even second graders do it, but during spring and early summer, bee's special messenger, Cupid, is in the particularly maddening our resident water reptile—the Alligator.

June, July, and August are mating and nesting seasons for alligators while it does not merit any cause for

concern, Florida folks and visitors alike should use special care when spotting an alligator.

Madame Alligator is no ravishing beauty but, to Mother Nature, she is gorgeous, short legs, round snout and all. Don't be misled by Mother Alligator's perpetual Mona Lisa smile, as she can be

her nest of soon-to-be-hatched offspring, and hell hath no fury like a female alligator provoked.

Let her have her way then. Join his brothers, sisters, and the dozens, as a valuable natural resource in Florida's ecosystem.

If you see an alligator, LEAVE IT ALONE! It's not nice to fool with Mother Nature!

If you seek information on the life and habits of the Florida Alligator, write (if) Game and Fresh Water Fish Commission at Tallahassee for a copy of the information folder "Facts About Alligators."

Home Office: your agent's office

Our rates haven't been going up. Our residual oil costs have.

And those increased costs are reflected on your electric bill in the form of the "fuel adjustment"—the main cause behind your higher bills.

To give you an idea how high our fuel costs have gone, in just one year (July to July), low residual oil cost delivered to FPL has gone from \$4.06 to \$11.72 a barrel. A 30% increase! And we use over one million barrels a day to generate your electricity. It would be even more than that if we didn't also use about 28% natural gas and about 20% nuclear energy. Both of these cost less than oil.

The charge we pass on to you for our higher oil prices does not reflect our total additional cost. Furthermore, we make no profit from the fuel adjustment. It is passed directly to the suppliers.

While we have no control over the increase the fuel adjustment causes in your electric bill, we are doing all we can to hold any future increases to a minimum and to bring all our customers the most dependable electric service possible. Now, and in the future.

CANDIDATE EARL ARMS
...first candidate to qualify as

Voter

Palm Beach County Supervisor of Elections Jackie Winchester, who qualified for re-election this week, and the Seagrass Beach County League of Women Voters were still urging county residents to for register by July 27. Winchester, who the League ball mentioned it, voters wishing to vote in the South Bay and this Belle Glade city elections must also be registered to vote in the county.

The final date for registration for the South Bay election on July 30 and the date for the Belle Glade is also July 27.

News From The Home Front

The Belle Glade Herald, July 18, 1974, 1B

CANDIDATE EARL ARMSTRONG, ABOVE, WAS first candidate to qualify and first by Mrs. Boglioli.

INCUMBENT CITY COMMISSIONER RALPH KIRK WAS THE SECOND to qualify Friday, filing with City Clerk Vern Jones in Group One above.

City Candidates Qualify Here

Qualifying was hot and heavy at the Belle Glade City Hall Annex Friday as three

candidates filed for two at-large city commissioner seats within the first half hour of the qualifying period for the Sept. 10 city election.

The first candidate to qualify was Earl Armstrong, a local business agency. Armstrong was also the first candidate ever to be qualified by Deputy City Clerk James Boglioli, who qualified him in Group Two.

The second candidate to qualify was Ralph Kirk, the only incumbent who will run in the election. Kirk was qualified in Group One by City Clerk Vern Jones. He is also an insurance agent in Belle Glade.

Providing competition for Armstrong was N. B. Willis, a resident of Belle Glade since 1958.

Armstrong was waiting when Mrs. Boglioli arrived at 8 a.m. to open the annex doors for the morning. Kirk arrived shortly after 8 a.m. and was the second to be qualified.

Kirk was filing for his third two-year term of office as city commissioner. 8 for, he has drawn no competition.

Armstrong and Willis said they have each run in one previous commission race, neither at which they were successful.

Armstrong ran against outgoing incumbent John Grady last year. Grady is leaving the commission to concentrate on his bid for the U.S. Senate seat now occupied

by Sen. Edward Gurney. Willis said he doesn't remember what year he made his unsuccessful bid for city office but was employed by the city as a building inspector for several years before that.

The 70-year-old Willis said he has been retired for the past year. He was previously involved in the real estate business.

Armstrong was waiting when Mrs. Boglioli arrived at 8 a.m. to open the annex doors for the morning. Kirk arrived shortly after 8 a.m. and was the second to be qualified.

Kirk was filing for his third two-year term of office as city commissioner. 8 for, he has drawn no competition.

AREC Scientist Position is a First

The appointment of Dr. Paul M. Lyrene to the faculty of the Agricultural Research and Education Center, Belle Glade, as Assistant Plant Breeder to work in the sugarcane breeding research program was announced today by Dr. Dan Beardsley, Center Director.

Dr. Lyrene's research efforts will be integrated into the overall variety work being conducted at the USDA Sugarcane Field Station, Canal Point.

Although a University of Florida appointee, Dr. Lyrene's office will be conducted at this facility. He will handle the stage III tests in the variety research program and will be involved in other basic cane breeding research.

He will join the team of Dr. Norman James, Research Agronomist and Location Pathologist; Dr. Tom Summers, Entomologist, all USDA RESEARCH SCIENTISTS.

In 1965 the University of Florida, U.S. Department of Agriculture and the Florida Sugarcane League entered into

a cooperative sugarcane breeding program. This research work has developed several new cane varieties which have been released for the Florida sugarcane industry.

The appointment of Dr. Lyrene fills the position which had been held on an interim basis by Mr. Ray Walker.

The establishment of this position as an integral part of the research program at Canal Point is the first time a University of Florida faculty member from AREC, Belle Glade, has been attached to a USDA facility.

Dr. Norman James, Location Leader, has stated that the new arrangement should utilize the total resources available to all three agencies for sugarcane breeding research most efficiently.

A native Indian's War, Ala. Dr. Lyrene graduated from Auburn University with a Bachelor of Science degree, with highest honors, in 1963.

In May 1974 he was awarded the degree of Doctor of Philosophy in plant breeding from the University of Wisconsin. His thesis

DR. PAUL M. LYRENE...appointed to Canal Point

dissertation was entitled: "Inheritance of protein in *Avena sativa* x *A. sterilis* crosses."

He interrupted his graduate studies to serve in the U.S. Army for 18 months at Ft. Meade, Maryland. Dr. Lyrene is single and is living in Canal Point.

PROVIDING COMPETITION WAS N.B. WILLIS, ABOVE, WHO FILED in Group Two against Earl Armstrong a half hour after filing began here.

Voter Drives Pushed

Palm Beach County Supervisor of Elections Jackie Winchester, who qualified for re-election this week, and the Palm Beach County League of Women Voters were still urging county residents to register by July 27.

Although neither Mrs. Winchester nor the League mentioned it, voters wishing to vote in the South Bay and Belle Glade city elections must also be registered to vote in the county.

The final date for registration for the South Bay election is July 26 and the date for Belle Glade is also July 27.

Since the local city election falls on the same date as the county-wide first primary on Sept. 10.

"This primary," league member Barbara Bush said, "is for the election of non-partisan judges and all other partisan offices which appear on the ballot."

"In order to cast a ballot in this important election, you must be a registered voter. If you are a Palm Beach County resident," Mrs. Bush said, "and are or will be 18 years of age on or before election day, you are eligible to register."

Mrs. Winchester said a mobile registration unit will be in the Belle Glade area all day on July 20, the last day to register for the South Bay election.

The unit will be at the U-Store at 634 S.E. Ave. E in Belle Glade from 10 a.m. to 2 p.m.; at the Kwik Check at 1101 S.E. Ave. E in Belle Glade from 2:30 to 5 p.m.; and at the Zion A.M.E. Church at 239 S.W. 10th St. from 5:30 to 8 p.m.

Assisting the members who normally man the unit will be 15 volunteers who began their own voter registration drive in the Belle Glade area Saturday.

The Department of Adult and Community Education announces that the General Educational Development (G.E.D.) test battery, which qualifies one for the Florida High School Equivalency diploma, will be given during the period August 6 & 7.

For further information call 994-2216.

Children Lionize Chet

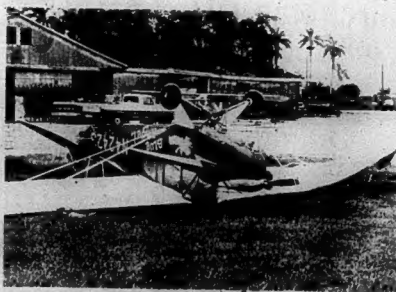

The kids at Gore Elementary School played host last week to Chet, a three-month-old lion cub from Lion Country Safari and found the cub was just as playful as any other overgrown kitty-cat. The children, involved with the summer school program, met Chet and

handler Katie Higgins, who were in the area as part of the tourist attraction's community service program. While the kids were the shy ones to begin with, it wasn't long before Chet was the one finding himself surrounded by his new friends.

Mother Nature's Rainy Flight is a Flop

Heavy rains and violent winds teamed up Friday to stall traffic, overturn an airplane, blow down trees and knock out power lines in some sections of the Belle Glade area. Rainfall varied from the 3.55 inches recorded at the South Florida Conservancy District office north on US441 to the 2.39 inches observed at the Agricultural Research and Education Center west of town on SR60. Three trees were reportedly blown down across SR60 between Belle Glade and South Bay and another weakened enough to fall on a truck Saturday, resulting in minor injuries to the driver. Meanwhile, at the Belle Glade Airport, The Elba Angel, a small private airplane owned by Glenn Mathews of 1800 S.E. Ave. G, ripped loose its tie-down moorings and was flipped over on its back by high winds. The airplane was declared a total loss.

GLADES CHURCH NEWS

THE HERALD WELCOMES NEWS ITEMS FROM YOUR CHURCH EACH WEEK.
CALL 595-2056 NOT LATER THAN TUESDAY NOON FOR PUBLICATION TUESDAY.

THE "JESUS KIDS" WILL BE HOSTED BY COMMUNITY UNITED
...Methodist Church of Belle Glade in week-long evangelistic youth experience.

Church to Host "Kids"

The "Jesus Kids" of Lexington, Ky., will be the guests of Community United Methodist Church July 23-30. During their stay, the "kids" will be involved in many activities. July 23-24 will be a furniture and household goods drive for the Seminole Indians. The Indians are in need of any household articles, drapes, dishes, furniture, bookshelves, appliances and old things in many people's closets would be of great value to these people. Anyone wishing to help may bring their articles to the Methodist Church or call 595-6409 or 595-5565 to have them picked up. A music workshop will be held two nights during the week. Plans are in the making

for recreational activities several afternoons in one of the migrant housing projects. All activities will be the joint efforts of the "Jesus Kids" and the Spanish and English youth groups of the church. The Jesus Kids is a religious folk rock group composed of musicians from Lexington, Ky., who believe the love of Jesus Christ can be effectively transmitted through the music of today. Although the average age is 16, the young singers and instrumentalists are reputed to perform with professional class and skill. During the group is Eugene Romero, Minister of Music at the Trinity Baptist

Church, one of the largest churches in Lexington. A five-piece instrumental ensemble travels with the group, presenting special numbers as well as accompanying the singers. During the summers of 1972-73, the Jesus Kids performed at shopping centers, nursing homes and children's hospitals. They also believe in work. They raised \$3,500 to pay their own way to Sandusky County in Western Ohio on two mission tours. While there, they taught Vacation Bible School to the migrant children in the area and ministered in similar ways as in the Lexington area.

Each traveling member assumes some responsibility for each concert. The fellow moving the equipment around and setting up may be job which is the evening service. With each concert comes the large task of unloading sound equipment, electric guitar, electric bass and drums. The Jesus Kids bring their own sound equipment and music equipment of various shapes and sizes. A variation of folk, gospel, spirituals, folk-rock and blues arrangement gives each hymn something to his or her own liking. Their concerts are evangelistic in nature and there is always a time of invitation and challenge.

Services Held for Local Resident

Funeral services were held for Philip Waldo Vulgamore, a resident of the Belle Glade area for the past 13 years, Monday at the Milton Funeral Home Chapel in Belle Glade, with the Rev. Ray Stehman, a local Baptist minister, presiding. Vulgamore, 63, died Friday at the Little Rock, Ark. Veterans Hospital. He was

born Aug. 2, 1910, at Elgin, Kan. He made his home at 1148 Stillwell Road. He was a member of the First Baptist Church of Belle Glade and was employed by Armour Security as a security guard at Remondo and Kenny Perkins and A. Dada and Sons. He was a member of the U.S. Army from 1948 to 1949, serving in the United States.

Survivors include his widow, Mrs. Sue Vulgamore of Belle Glade; two sons, Carry Jones, who is in the U.S. Air Force in Denver, Col., and Terry Vulgamore of Belle Glade; three daughters, Mrs. Cathy Gilson, Miss Kendra Jones and Miss Melody Vulgamore, all of Belle Glade; his parents, Mr. and Mrs. Hugh Vulgamore of Pawhuska, Okla.; one sister, Miss Phyllis Vulgamore of New York; three brothers, Royce, Edwin, and Carl Dean Vulgamore, all of Pawhuska, Okla.; and two grandchildren. Pallbearers were Willie Lee, Billy Cowart, Wilford Markham, Charles Lane and M. J. Spooner. Burial was in Port Maynes Cemetery. Milton Funeral Home was in charge of arrangements.

Services Held

Funeral services were held for Clarence Alfred Hoggett, a former long-time resident of Belle Glade and a retired farmer, Friday at the Lakeside Baptist Church in Pahokee with Elder E.L. Johns officiating. Hoggett, who was 72, was residing at Homestead at the time of his death on July 10. He was a native of Dooley County, Ga., and a member of the Lakeside Baptist Church. Survivors include his widow,

Mary; two daughters, Marie Sherry of Belle Glade and Mrs. Elnora O'Hara of Homestead; three brothers, Otto of Cordale, Ga., Oliver of Ladeland, Ga., and Luther of Sanford; three sisters, Mrs. Saline Swenton of Vernalis, Ga., Miss Edna Hoggett of Ladeland, Ga., and Mrs. Emma Commander of Pensacola. Burial was at Port Maynes Cemetery. Wetherington Funeral Home of Pahokee was in charge of arrangements.

The Parson Pontificates

Isn't it terrible the way the young people are using drugs today? They are ruining their minds, their bodies, and their souls! One particular drug is credited with responsibility for more than half the family problems in our nation. And the "..." of this drug opens openly and unabated. The drug accounts for a majority of automobile accidents, and according to a court official in Palm Beach County, it is a factor in about eighty percent of the crime in our country. The use of this drug, which has addicted about eighteen million Americans, is constantly on the rise, and especially among teenagers. This villain, which is now America's number one drug problem, is alcohol! I wonder when the young people ever get the idea of using it?!! (Read Isaiah 53:1, Hebrews 2:15, and Romans 14:21).

THE LIGHT

"Thy word is a lamp unto my feet, and a light unto my path."

The bible, God's word, has often been compared to a light, for it penetrates the darkness and reveals God to man. It is the light that leads man down life's pathway. For those who study it, it reveals not only the past, but also the future.

"The entrance of thy words giveth light; it giveth understanding."
Attend church and hear God's leaders expound on His word.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Colossians 4:6, 7.

Tree Shenanigans

"...a tree that may in summer wear, a leaf of pleasure-climbers in her hair," is what you'll surely find if you happen to visit the summer enrichment program at Okechobee Center. Almost an escape from the down-to-earth reality of heat, heat, and more heat, these youngsters find relief resting among the thick, shade-bearing leaves and branches, there...for the climbing!

Family Expresses Gratitude

Uncle Sam is looking at cars again and trying to get our makers to guarantee mileage. They have in the works regulations that will set a minimum of 14 mpg for 1977 models, 17 mpg for 1980 cars and 21 mpg for all new 1980 cars. Detroit engineers say with that kind of lead time, they can have the cars ready to do it. Engineers say that cars are not moving back toward the Model "A" and early 1920's "box" styling. But some advance looks at some of the newer Detroit plans look like it, this side metal and squarish front and rear. We'll see.

We would like to take this opportunity to thank our many friends and relatives for the flowers and expressions of their sympathy they gave us following the loss of our beloved husband and father, Philip Vulgamore, this week. Mrs. Sue Vulgamore and family

Enrollment Up 172 at PBJC

Enrollment at Palm Beach Junior College in Spring Term '74 is 1,203, up 172 from the same term a year ago, according to Laurence Mayfield, Registrar. A trend toward slightly higher enrollment, with gains concentrated in evening students has been continued into this term, Mayfield said. There are 784 day students in the current term, he said, and 1,019 evening students. These figures compare with 814 day students and 823 evening students a year ago. The term continues through Aug. 6, with registration for the Fall Term scheduled for Aug. 19. Day students applications for the Fall Term must be filed by 5 p.m. July 28.

Like a good neighbor,
they have a plan.

The Florida Division of Corrections motor vehicle license manufacturing system is already gearing up for production of validation stickers which will be sold next year in lieu of new metal licenses. Division Director Louis L. Valovright said.

Although the dust has barely settled on the metal tag plant at Union Correctional Institution, Balford, after its successful and on-time production and delivery of all 1976 tags initially ordered by Florida's 67 county tax collectors, renovation of the factory for next year has begun.

The UCI tag plant will remain in operation on a limited scale during the next three years to provide additional license plates needed by state residents during the remainder of this 1974-75 fiscal year, and to provide

plates for new car owners or for new state residents during 1976 and 1977. The renovation of the tag plant will expedite its operations to meet these needs.

An extension of the UCI tag plant is being established at Apalachicola Correctional Institution, located about 60 miles northwest of Tallahassee in Suwanee, Fla. The validation stickers which will be purchased by the vast majority of Florida drivers during 1976 and 1976-77 will be produced at the UCI factory.

According to Bill Kelley, Chief of Industrial Operations for the Division of Corrections, new equipment has been ordered for production of the one-inch by inch-and-a-half rectangular stickers. A supervisor for the new sticker production system is also being hired, Kelley said.

Because each sticker will cost the state about five cents compared with the 50-cent tag per metal plate, it is estimated the state can save up to \$7 million during the next three years, Kelley said.

Motor vehicle owners will retain their 1976 reflectorized aluminum orange-on-white plates through June, 1977, affixing validation stickers to the tag corners in each of the next two years.

Each of the new stickers will be imprinted with a serial number, the date of the year and an outline of the state of Florida on a specially designed counterfoil-proof background. The 1976 stickers will be kelly-green and white. Colors for the 1977 stickers have not

yet been chosen. Backed by a powerful adhesive, the reflectorized stickers will not be removable from the metal tags without sticker destruction—once they have been properly affixed.

Directions for affixing the stickers to the proper corner of the metal tags will be printed on the clear plastic envelopes in which the stickers will be sold.

Approximately 7.5 million of the new validation stickers will be produced to meet the needs of the state's increasing population of motor vehicle owners, Kelley said. Almost 7.5 million of the three-year metal tags were produced to meet the demand this year. The initial renewal period for the 1974 one-year metal license tags is from July 1 through August 30, 1974.

Walls-Gilbert Wed June 28

Miss Sharon Gail Walls became the bride of Roger Lionel Gilbert in a candlelight ceremony at 7:30, June 28, in the First Baptist Church, Belle Glade. The Rev. Stephen L. Cloud performed the double ring ceremony.

The bride is the daughter of Mr. and Mrs. James P. Walls, 306 N.W. Ave. E., Belle Glade, and Mr. Gilbert is the son of Mr. and Mrs. Harry L. Gilbert of Frankfort, Mich.

At the guests entered the sanctuary they viewed the altar banked in palms with a white cross, a large Bible and one huge white floral arrangement as the center background.

On each side were spiral candelabras and on the left was three symbolic memorial candles which each mother lit as they were escorted into the sanctuary, leaving the center candle which was lit by the bride and groom as part of the closing ceremony.

Mrs. Helen Youngblood, organist, and Mrs. Ann Kirby played nuptial music and accompanied the "Glory Singers Ensemble" as they sang "Live Your Life in Me, Love" and Mrs. Pat Steinhart as she sang for the closing prayer, "The Wedding Prayer."

Escorted to the altar by her father, the bride wore a long, white silk organza gown appliqued with white daisies, her long veil was also trimmed with appliqued daisies. She carried a white Bible with white roses and Brassavola Nodes.

Miss Diane Walls, sister of the bride was maid of honor. She wore a floor length dress of orange organza with yellow Doris Bates, Mrs. Blanche Jones, Mrs. Shirley Davis, and orange and yellow brocade. Mrs. Linda Richy Campbell carried a yellow rose.

Miss Melissa Johnson of Frankfort, Mich., and Mrs. Janice Brantley of Belle Glade were bridesmaids and both wore after length yellow

organs dresses and carried a yellow long stem rose. Flower girls wore a floor length dress identical to the brides attendants and carried a basket trimmed with yellow roses and dropped rose petals.

The groom's best man was Randy Gilbert, brother of the groom and the ushers were Sid Johnson from Ocala Springs, Miss. and Mike Foster of Belle Glade. The groom wore a black tuxedo with white shirt and black tie. The groomsmen wore white tuxedos with white shirts and black ties.

Mrs. Walls chose for her daughter's wedding a floor-length blue knit dress and Mrs. Gilbert wore a pink knit with pink organza full length sleeves. Both mothers wore orchid corsages.

Grandparents attending the wedding were Mrs. Mollie Stacy of Belle Glade, Mrs. Mary Lou Walls of Center Hill, Mrs. Ethel Gilbert of Frankfort, Mich. and Mr. and Mrs. Truman Rogers also of Frankfort, Mich.

The reception was held in the social hall which was decorated as a garden. An old well with wooden bucket full of roses was in the center of the room and hanging baskets were decorating sides.

Many palms and greenery gave the feeling of outside garden. Tables had yellow table cloths and orange candles. The wedding cake had the traditional bride and groom on top of a large three tier white cake decorated in orange and yellow.

Serving at the bride's table were Mrs. Jane Rankley, Mrs. of orange organza with yellow Doris Bates, Mrs. Blanche Jones, Mrs. Shirley Davis, and orange and yellow brocade. Mrs. Linda Richy Campbell kept the bride's book.

Mr. and Mrs. Gilbert will be living in Frankfort, Mich. after a short honeymoon to the east coast of Florida.

Timesaver Retains Second Place

Cont. from p. 3

Not to be let down, the Glades Sugar players scored another run in the last inning but their hopes were dashed as Frances McLeod snagged a line drive to get the last out. Meanwhile, Wallis Pharmacy added three runs in the top of the seventh inning to make the final score 18 to two.

A. Duda and Sons challenged Timesaver to a dual which ended with Timesaver winning and dropping Duda back another game in the standings. Lynda Moss scored the first of Timesaver's three runs in the first inning as they took an early lead. Undaunted, Duda came back with two runs as Junior Meadows and Dean Duda scurried around the bases to trail by only one run. Timesaver doubled its score in the third inning as Lynda

Moss, Susan Moss and Mary Lou Stevens crossed homeplate. Susan Moss added Duda's only run as Sarah Rivers grounded out to the pitcher. That was all the scoring for a while for Duda as Timesaver held them down and went on a scoring binge which resulted in 21 runs by the end of the fifth inning. Susan Moss made a homerun to help with the scoring.

Duda rallied in the last inning with four runs before the Timesaver girls could get themselves together and get the last three outs.

The final score was 21 to seven, in favor of Timesaver.

The other game, which was played in Canal Point between Glades Sugar and Indian River, ended with Glades Sugar capturing its second win of the season, nine to seven.

NOW, DIANE* THE OBJECT OF BALLET IS TO... no, no-the name of the game's softball, not dance.

WELL, AT LEAST THE SCOREKEEPER'S GOT HIS MIND ON THE GAME... Well, go, Wayne. Keep your minds on your wives, Donald and Roger.

Plunkett-Showman to Be Wed

Miss Beverly Showman and Belle Glade with the Rev. Stephen Choud officiating. Miss Showman is a graduate of the First Baptist Church in

Moscow, Pa., and of Moody Bible Institute of Chicago and has attended Palm Beach Junior College and Palm Beach Atlantic College.

She is presently employed as a teacher at the Christian Day School in Belle Glade.

Plunkett is a graduate of Belle Glade High School and has attended Palm Beach Junior College. He is now employed as a parts salesman at Glades Chevrolet, Inc. in Belle Glade.

The bride's attendants will be Mrs. Mike Foster, matron of honor; Miss Jan Bottoms and Mrs. Paul Hill, bridesmaids; Trisha Hill and Angie Hill will be the flower girls for the ceremony and the bride will be given away by her father, Martin K. Showman.

The groom's attendants will be George Plunkett, his father, as the best man, and Paul Hill, Bernard Showman and Mike Foster as the groomsmen. Spencer Amos will serve as a junior usher.

The public is invited to attend and share in the joy of witnessing as Miss Showman and Mr. Plunkett exchange their vows.

New Pocket Rules Issued

TALLAHASSEE-The new pocket-size summary of hunting and fishing rules and regulations is now being distributed to Florida sportsmen. Copies of the new rule booklet may be obtained at the offices of all County Tax Collectors when sportsmen purchase their 1974-75 hunting and fishing licenses.

The rule booklet serves as a guide to legal methods of taking wildlife and fresh water fish and contains information about the 1974-75 seasons, dates, and bag limits for all resident game birds and animals and fresh water fish. Sportsmen purchasing their 1974-75 licenses prior to July 1, and not receiving a copy of the

rule booklet may request a copy from their County Tax Collector or one of the license agents. Copies are also available upon request to the Game and Fresh Water Fish Commission at Tallahassee, Panama City, Lake City, Ocala, Lakeland and West Palm Beach.

Florida sportsmen are urged to review the new 1974-75 hunting and fishing rules and become familiar with laws that regulate their outdoor activities.

Insurance Corner

By Milton Carpenter

IF KEY MAN DISABLED

When Tom Simpson was disabled in an auto accident, his ability to earn money for his employer ceased. Tom's employer felt an obligation to continue his salary despite the setback in production and profits. A far-sighted employer, he was covered by a key-man accident and sickness policy on his valuable employee.

The premiums for such a policy are fully deductible as a business expense. Should the key man become disabled, the amounts paid to him to compensate for loss of wages during absence from work are excluded from gross income up to a rate of \$100 per week after the first 90 days of disability.

From the employee's standpoint, the benefits of accident and sickness insurance should improve his morale and sense of well being. The employee is not faced with the problem of continuing all or part of the disabled man's salary concurrently with meeting replacement cost. It guarantees the employer that he will not have to pay two salaries for the same job.

This information has been brought to you as a public service by your insurance professionals, the insurance agency that cares. MILTON CARPENTER INSURANCE CO., INC., 141 E. Avenue C, Belle Glade, Phone 396-7211. Associates Thomas B. Ruffell and Paul Koray.
